

DDS401

Amplified Indoor UHF HD Antenna

FEATURES & BENEFITS:

- Indoor Antenna for receiving DVB-T (Freeview) digital television
- Full HD Ready
- 3G/4G Interference Free
- Simple Connection
- Made for New Zealand
- Powered by AC adaptor, USB or directly via DVB-T receiver
- Built-in high gain and low noise amplifier
- GSM filter to improve digital performance and anti-ghosting
- Shielded for minimum interference
- Horizontal or Vertical positioning for best possible reception

TECHNICAL SPECIFICATIONS:

- DVB-T Freeview compatible
- Frequency response: 502-694Mhz
- Receiving range: UHF
- Gain: 30dB
- Max output level: 100dBμV
- Impedance: 75Ω
- Power supply: via USB cable (DC 5V 40mA)
or DTV set top box (DC 5V 40mA)
or AC/DC adaptor (DC 6V 100mA)
- External sockets: IEC – connector female, DC plug, USB plug
- Noise figure: ≤3dB
