Accessories

DC 12 V
AC 230V
Adaptor x2

Infrared Extender X 3
1,1.5,2m in length

CAUTION:

This equipment has been tested and found to comply with CE, FCC, Canadian DOC. regulations. These regulations are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with this manual, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular situation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the distance between the affected equipment and the receiver.
- Connect the affected equipment to an outlet on a circuit which is different from than the one the receiver is connected to.
- Consult the dealer or an experienced radio/TV technician for help.

IMPORTANT SAFETY PRECAUTIONS

- To prevent fire or shock hazard, do not submerge or expose this product to water.
- To avoid electric shock, do not open the units. The DIR300V contains no user serviceable parts. Doing so will void the warranty.
- Use only the power supply provided with the DIR300V
- Do not overload wall outlets or extension cords.
- If you are experiencing difficulty with this product, do not attempt to service it yourself. Please call your vendor for assistance.

Product Description

The DIR300V Wireless Infrared Remote Control Extender enables you to extend the range of your present Infrared Remote Control so that you can operate VCRs, stereos, Cable Converter, Satellite receivers, etc., virtually anywhere in the home.

Applications

The remote operation of electronics products that utilize IR (Infrared) remote control technology such as:

- **Satellite Receivers**
- **Television**
- **VCR's (Video Cassette Recorders)**
- **CDs (Compact Disc)**
- **DVD's (Digital Video Disc)**
- **LDP's (Laser Disc Players)**
- **Cable Converter Boxes**
- **Audio / Hi-Fi Stereo Systems**
- **Wireless Video Sender Systems**
- **Any IR Remote Controlled Devices**

Care and Maintenance

- Keep the DIR300V Remote Extender dry. If it gets wet, wipe it dry immediately.
- Use and store the DIR300V only in normal temperature environments. Extreme temperature can shorten the life of electronic devices
- Handle the DIR300V gently and carefully. Dropping it can damage the circuit board and can cause it to work improperly.
- Keep the DIR300V away from dust and dirt, which can cause premature wear of parts.
- Wipe the DIR300V with a damp cloth occasionally to keep it looking new. Do not use harsh chemicals, cleaning solvents, or strong detergents.

Specifications

Operating Voltage	230 VAC, 50Hz /60Hz DC 12V, 250mA
Power Consumption (pair).....	3 Watts Max
Transmission Frequency.....	433.92MHz+/-1MHz
Power Gain.....	10dBm
Effective operating range.....	about 100M (clear line of sight)
